

Replacement Hospital Bed Mattress

MANUFACTURING PRODUCTS DESIGNED TO

Since 1982

INCREASE PATIENT SATISFACTION & COMFORT

Multi-Layered Foam

Constructed of various IFDs & densities, our pads address the different needs of each body section.

Top Head/Torso: 2" Memory Foam provides added comfort & prevents skin breakdown by producing a pressure redistribution support system.

Middle Head/Torso: 3" foam with 2.5 density

Top Heel: 2" extra-soft comfort memory foam

Middle Heel: 3" pillow foam with 1.8 density

Foundation: 2" foam with 1.8 density

Perimeter Foam: Helps position patient, reduces risk of entrapment in side rails/mattress gaps, provides safer transfer & stable "edge-of-bed" sitting.

Family Owned Family Operated

* In business since 1982 *

We manufacture our own products providing you with exceptional quality & prices.

XCPR-MF Hospital Mattress

developed with Patient Comfort & Satisfaction as our main focus.

Uncompromised Quality

Provides durable & easily sanitized surface improving operational efficiency. With pending healthcare "Pay for Performance" legislation this can result in increased Hospital reimbursement.

Normal Delivey Time

5-10 working days

Features

T-Green Attributes

Special designed Bottom Section to fit Hill-Rom VersaCare Bed allowing proper Head & Knee Articulations.

Surface:

Mattress Thickness 7"

Width up to 36"

Length up to 80"

Bio-Elastic "Xtreme" Top Cover

Our moisture proof 4-way stretch mattress covers are easy to clean & disinfect. ALL seams are 100% radio frequency welded preventing tears & keep fluids out.

Our covers contain Santized Silver Anti-Microbial protection killing 99.99% bacteria AND Polyurethane/ Polycarbonate, providing added strength & preventing the "alligator look" caused by chemical breakdown of fibers. Foot end hidden zipper allows easy on/off.
